My Story

Have others get to know more about who you are, what makes you tick and what you'd like to accomplish.

Strategic UX designer, problem solver and team player.

Energised by fast-paced, collaborative environments. Fascinated by developing technology. Motivated by human-centered design. I endeavour to provide holistic, meaningful solutions for people while meeting business needs.

I love to work closely with the client and team members to make the best product as a team.

Why I love my job
